

## Klasa 5a, b, c, d INFORMATYKA

**Termin:** 25.05 – 29.05

**Temat:** Nauka programowania – code.org.

1. Moi drodzy. Proszę przejść do strony - <https://studio.code.org/s/course3> i rozwiązać zadania od 1 do 12 z lekcji Labirynt: wyrażenia warunkowe.
- 2.

The screenshot displays the Code.org 'Zombie Garden' game interface. At the top, the title 'Etap 8: Labirynt: Wyrażenia warunkowe' is visible, along with a progress indicator showing 10 steps, with the first step completed. A 'Zaloguj się' button is located in the top right corner. The main area is divided into a game field on the left and a 'Blok' (Block) editor on the right. The game field shows a zombie character on a path, with various plants like sunflowers and zombies. Below the field are 'Uruchom' (Run) and 'Krok' (Step) buttons. The 'Blok' editor shows a 'repeat until' block being used to move a zombie to a sunflower. The 'Instrukcje' (Instructions) panel on the right contains the text: 'Use the repeat until block to get the zombie to the sunflower.' and an 'OK' button. The bottom of the screen shows a language dropdown set to 'Polski' and links for 'Polityka prywatności', 'Prawa autorskie', and 'Więcej'.
